Education

Bachelor of software Engineering
Private Engineering School - EPI
2023 – present

Specialization : Mathematics
Preparatory Institute for Engineering Studies , Monastir
2020 – 2023

Specialization :Mathematics
Scientific Baccalaureate
2016 – 2020

Skills

Front-end
- HTML5, CSS3
- JavaScript
- React.js

back-end:
- Node.js (Express)
- PHP
- RESTful API development
- Spring boot

DataBases :
MongoDB
MySQL

Languages

- English : Fluent
- Français : Fluent
- Arabic : Native

Academic Projects

Travel Agency Web Application:
Built a responsive travel booking website using HTML, CSS, JavaScript, and PHP, enabling users to view available trips, submit reservation requests, and manage their bookings through an intuitive interface.
- **HTML, CSS, JavaScript & PHP**

Hotel Reservation :
Developed the back-end of a hotel reservation system using Node.js, Express, and MongoDB, implementing secure JWT authentication, role-based access control, RESTful APIs for room and reservation management, statistical endpoints, and equipment handling, with data modeling via Mongoose.
- **Nodejs, Express,MongoDB**

Medical Clinic Management System:
Created a full-stack web application using React.js, Node.js, Express, and MongoDB to streamline the management of a medical clinic. The platform supports multiple user roles (doctor, patient, secretary, lab technician, admin) and provides features such as appointment scheduling, medical record management, consultation tracking, exam request handling, and secure document storage.
- **React.js, Node.js & Express, MongoDB**

Mini Project: Author and Book Management
Development of a back-end application using Spring Boot that enables complete management of authors and books (CRUD operations). Implementation of OneToMany and ManyToOne relationships between entities using Spring Data JPA, with exposure of functionalities through REST controllers. MySQL is used as the database.
- **Spring Boot,Spring Web,Spring Data JPA**

Medical Desktop Application with UI/UX Design
Development of a medical desktop application with an interface designed in Figma, focused on user experience. The project was carried out with a mindset of continuous learning and improvement.
- **UI/UX Prototype (Figma)**

Certificates

CCNA 1:
Introduction to Networks

CCNA 2:
Switching, Routing, and Wireless Essentials

Microsoft Azure Fundamentals:
Solid understanding of core cloud concepts and Azure services

Soft Skills

- Communication , TeamWork , Problem-Solving and Adaptability

Organizations

Microsoft EPI Club
Media & Organization Team Member
2023 – 2024
- Contributed to the planning and organization of club events and technical workshops
- Assisted in content creation, design, and media promotion
- Collaborated with team members to support community engagement and event success
